

# HW-800S/GL FULLY HYDRAULIC CORE EXPLORATION RIG

## Drilling capacity

Diameter	HTW-NTW-BTW
Depth	400-800-1000

## Hydraulic system

Rated pressure	25
Rated flow	260
Cooling type	Air cooling + Water cooling

## Engine

Brand	Yuchai
Type	Turbocharged
Rated rotary speed	2400
Rated power	92

## Power head

Maximum torque	950-1300
Maximum rotary speed	1300
Feeding stroke	2400

## Drilling tower

Type	Ground contact integrated tower
Drilling angle	45-90
Lifting force	24
Feeding force	12

## Hydraulic mud pump

Flow	90-180
Pressure	4-7
Transport dimension	5500*2100*2000
Weight	6.5

## Winch

Lifting force	600
Rotary speed	100-300
Wire rope diameter	6
Rope capacity	800

## Thin-Wall Diamond Wire Coring Drilling Technology

- Advanced structure
- Full hydraulic transmission
- Multi-angle tower on touchdown
- Precise and convenient operation

HENGWANG

# SHANDONG HENGWANG GROUP

We have the well-equipped machine, advanced technology, and strict quality management system. Excellent quality and good service win trust and reward in domestic and overseas. We sincerely welcome friends from all over the world to come for a visit and cooperation!
